### **WHY DO WE NEED CHRISTIAN ATTORNEYS?**

This is Attorney Timothy Denney for Christians and the Law. Have you ever wondered why there are so few Christian lawyers? Your first response might be “so what.” You should reconsider. On average, a large percentage of our legislatures are made up of lawyers, sometimes up to 50%. About half of our Presidents, many of our governors and almost all of our judges have been lawyers. Lawyers dominate many of our society’s policy-making positions. Some say law is too dirty for Christians. Let me suggest that the nature of the profession should not scare you away. Thousands of Christian lawyers practice their profession every day without compromising their biblical ethics and more Christian lawyers would serve only to improve the profession. If Christians do not encourage their children to enter the profession that generates most of our country’s leaders, they should not be surprised if our country follows policies that do not reflect their values. If God doesn’t direct your child into full-time Christian service, maybe He would have them serve in the profession that will produce many of our country’s future leaders.
